# ALLIANCE SPRING BRAKE CHAMBERS.

Alliance brake chambers are designed to provide years of safe, dependable operation for service, parking or emergency braking applications. These spring brakes and service chambers feature rugged construction, heavy-gauge housings and steel components to reduce corrosion and potential equipment failure.

- Treated and coated for corrosion protection, dramatically extending life
- Steel internal rod and slotted centre seal design improves alignment of moving parts and prevents premature seal wear
- Synthetic blended rubber diaphragms for superior resistance against abrasion and fatigue cracking

Ask your Alliance dealer about the full range of spring brakes, chambers and components.
